MINUTE ENTRY

Pending before the Court is Respondent's "Motion to Address Outstanding Financial Issues" filed June 18, 2012. Petitioner has not filed a response.

Respondent requests that the court order Petitioner to reimburse Respondent the amount of the Credit/Refund that he would have claimed had he claimed the child for the tax year 2009. This motion is untimely. If Respondent was entitled to claim the child as a dependent in 2009, he should have done so. If Respondent believed that Petitioner did not follow through with a settlement agreement in 2009, his remedy was to seek appropriate and timely relief at that time. Seeking relief three years later is untimely. Respondent has not made a showing under Rule 85 of the Arizona Rules of Family Court Procedure that such relief is warranted or that he is entitled to same. Consequently, Respondent's request that the Court order Petitioner to reimburse him the amount of the Credit/Refund he would have taken 2009 is DENIED.

Respondent further requests that the Court "clarity [sic] the judgment against Mother for the overpayment that she agreed to pay Father in August 31, 2005 Judgment and Order of the

Court.” Pursuant to the aforementioned Order that was signed on August 31, 2001, this Judgment has already been entered. The Court is unable to further clarify an agreement that the parties themselves reached. If Respondent seeks to enforce said Order, he must do so by seeking the appropriate relief in Civil Court.

All parties representing themselves must keep the Court updated with address changes. A form may be downloaded at: <http://www.superiorcourt.maricopa.gov/SuperiorCourt/Self-ServiceCenter>.
